## FÉMININDE, the mystery woman, the bollywood fragrance

With fresh and flowers notes, such as Orange from Brazil and Rose, who gives the top notes, "FÉMININDE" by SAHLINI is produced with high quality ingredients, and is more than ever a niche fragrance. Delicious spicy Indian cardamum, black pepper and cinnamon from Ceylon, just give the "spiritual" in this mystery perfume ... The last notes are both subtle and intense, in harmony with Sandal and Balsam Fir Wood, slightly leather, gives the strength and originality of all: everything makes sense: and it is unexpected, sparkling, enchanting ... !

This is « a delicately designed bottle like a couture garment » as likes to define the creator.

The bottle glass is covered with her sari embroidered with beads, stones, rhinestones, like a suit of pure Bollywood film, completed with cap carved wood, makes the object its symbolic value : it's the signature of the brand: interweaves of the French know-how to Indian style ... to stimulate the imagination and the desire to escape.

FÉMININDE by SAHLINI: a mischievous fragrance, to sublimate the dual personality of a woman and both provocative and secret !
